About me:

Front-End Developer with practical experience in JavaScript, React.js, and modern state management solutions such as Redux, Redux Toolkit, and Context API. Skilled in designing and implementing structured, maintainable user interfaces with a focus on performance and scalability.

Background in C, currently expanding skills toward Full-Stack Development through hands-on experience with PHP, advanced SQL queries, and database management using MySQL.

Proficient in implementing RESTful APIs and AJAX to create dynamic, interactive web application features, and familiar with integrating front-end components with back-end services to ensure smooth data flow and optimal performance.

Technical Skills:

Frontend Development:

- HTML5 , CSS3 , SASS , Bootstrap
- JavaScript , React.js , TypeScript , Material UI
- State management : Redux , Redux Toolkit , Context API
- Responsive Design , Web Performance Optimization
- RESTful APIs , AJAX Integration

Backend & Database:

- PHP
- SQL, MySQL (Database Management & Advanced Queries)

Others:

- Git
- Familiar with common web security vulnerabilities (XSS, SQL Injection)

Education:

University: Islamic Azad University, Shahr-e-Qods Branch

Field of Study: Computer Engineering

Status: Graduated (2025 / 1404)

GPA: 18.06 / 20

Courses & Certificates:

web design pack:

- institute: tehran institute of technology
- date: July 6, 2023

React Development:

- institute: tehran institute of technology
- date: February 16, 2024
